BONNEY'S SHOCKING STORY

Incidents Showing that Major Barttelot

Was a Very Cruel Commander.

Charged with Murder in Various Forms, Can-

nibalism and Revolting Conduct in His

Treatment of Soldiers and Natives.

LONDON, Nov. 10 .- The Times this morn-

ing publishes a three-column signed state-

ment from Mr. Bonney. The writer opens

by regretting that Barttelot's brother has

forced the disclosure of a painful story.

Bonney says that Stanley only heard of the

poisoning suspicions from him on the 26th

of last October in the course of conversa-

Stanley. Barttelot and Jameson agreed

not to partake of, his hospitality.

Bonney confirms the report that Bartte-

Bouney confirms the statement that Barttelot deliberately hit a woman. The Major, he says, fastened his teeth in the

woman's cheek, not in her shoulder, as

stated. For this Barttelot would have

been lynched if Bonney had not

rescued him. Bonney says it is quite true that the Major grinned fe-

clares he has no doubt of the correctness of

Jameson's story. Jameson showed him the sketches of the cannibalistic scene, and

described it in detail. Six sketches are

now in the possession of Jameson's

widow. They represent the tying up, killing and cooking of the girl, the distribu-

tion of the flesh to the natives scrambling

for the pieces, and the cooking and feast-

ing. Bonney declares that he told Bartte-

lot's brother of the whole proceeding and that had he published the

complete diaries they would have

thrown much light on the affair. He says,

in conclusion, that he can only believe that

Dr. Koch's Cure Working Wonders. BERLIN, Nov. 9 .- Professor Bergman inoculated fifteen consumptive patients on Thursday by Professor Koch's process, and on the following day exhibited one of the patients before a number of physicians in order to show the change that had resulted within twenty-four hours. The Borsen Courier says it has authority for the state-medt that Professor Koch's remedy has proved to be a success. A famous German surgeon, it says, cured within five days a case of lupus, or necrotic tubercular destruction of the tissues of the face. The National Zeitung says that Professor Koch, although he has performed a number of cures, does not yet consider the time come for the publication of his researches. Al-though the remedy has been applied to patients in the charity hospital and in some private cases, its composition remains a profound secret.

Von Caprivi Homeward Bound.

MILAN, Nov. 9 .- Gen. Von Caprivi left Milan at 9 o'clock this morning, after bidding a cordial farewell to Prime Minister Crispi. The principal German residents were at the station to witness the departure of the Chancellor, and he shook hands heartily with them all. As the train moved off he was vociferously cheered. When the Como station was reached the train stopped and General Von Caprivi sent a telegram to Signor Crispi, receiving a prompt reply. The Chancellor then proceeded on his journey to Berlin.

Purged Itself of an Unworthy Member. LONDON, Nov. 9 .- A rare incident in the history of the Stock Exchange occurred during the past week. It was the action of the committee in expelling from the insti-tution Percival Preston, a broker, for breach of faith with a client. It seems that the client had ordered Preston to sell a large parcel of Mexican securities, but that the broker, disregarding the interests of his client, first sold for himself, thus spoiling

Advocated a Belgian Republic, BRUSSELS, Nov. 9 .- Meetings were held throughout Belgium to-day in favor of an eight-hour working day and universal suffrage. Many speakers advocated a Belgian republic. Money was collected in anticipation of a general strike. Serious Rows at Martinsville and Greencastle -The Fairmount Riot-Decision that Invalidates Anti-Peddling Laws.

INDIANA.

The Returns Indicate that the Democrats Had a Vociferous Saturday Night. Special to the Indianapolis Journal.

MARTINSVILLE, Nov. 9 .- Last night, during the jolification by the Democrats, the usual hat-burning was indulged in and numerous fights were the result. Robert Hunt, the eighteen-year-old son of Hampton Hunt, of this city, was on the street with a small horn when Henry Baker attempted to take it away from him. Baker was drinking heavily, and was much the larger. A scuffle ensued, during which knives were drawn. Hunt, using a large pruning knife, cut Baker from ear to ear across the back of the neck, and also cut an ugly gash in front, almost severing the jugular vein. Baker's recovery is doubtful. GREENCASTLE, Nov. 9.—The Democrats of this city held a jollification last night, in which bedlam and whisky reigned supreme. "There was figting all along the line," and in nearly every instance the parties to it were the victors themselves. A disturbance occurred at the Centennial saloon, in which Charles Zimmerman was cut in the arm by Buck Day. The injured man's muscle was completely severed. The city was at the mercy of the mob, even during the early hours of the Sabbath.

Another Man Injured at Fairmount.

Special to the Indianapolis Journal. MARION, Nov. 9 .- The excitement occasioned by last night's riot at Fairmount has subsided somewhat, and all talk of mob violence has abated. Thomas Udley, the negro who is charged with murder, was brought to this city this morning by Sheriff McFeeley and lodged in the county jail. Cornelius Paul's death occurred this morning. Coroner Hamilton commenced his inquest this morning. The other four or five men who were cut or shot are reported to be in a fair way for recovery, except one from Summitville. This man, whose name could not be learned, was placed aboard a train and hurried home immediately after the shooting commenced. His wounds are reported probably fatal. Udley, the prisoner, declares his innocence, and says he was only a spectator. He shows two ugly gunshot wounds which may yet prove

Rumored Prize-Fight Near Muncle. Special to the Indianapolis Journal.

MUNCIE, Nov. 9.—Saturday night there was a young man at the Big Four depot in this city, who presented a badly disfigured face, while his hands were swollen and he looked as though he had been in a controversy with the business end of a cyclone. The young man was asked the cause of his appearance, and with a gruff voice re-marked that he was the "St. Paul Kid," James Kennard, of Buffalo, N. Y., and a pugilist who had tackled a man the night before not far from the city for ring honors, and it seemed the man he met had been misrepresented to him, and he was unprepared for the reception he received. He said he would return "in shape" and accommodate his antagonist. No other par-ticulars could be learned.

Minor Notes. Charles Flack, of Shawneetown, Ill., was killed at Evansville by falling down-stairs. Emma Flynn, aged seventeen, residing near Franklin, died from the results of a fall down stairs.

E. B. Ramsey, of Burkett, section foreman on the Nickle-plate, was badly mangled by a train. Mesars. Lockridge, of Greencastle, sold to a

A Supreme Court Decision Invalidating the Peddlers' License Laws. Special to the Indianapolis Journal.

MONTICELLO, Nov. 9.- The Supreme Court of Illinois has just rendered a very important decision which will be of great interest to all towns and villages in the State. The case went up from Piatt county, and was the Village of Cerro Gordo against S. B. Rawlings, who was engaged in selling proceries for Levering & Co., of Chicago. Mr. Rawlings took orders for groceries and had them sent to customers, collect on delivery. The village trustees had Rawlings arrested and fined \$10 and costs for selling without a license. The case went through all the courts up to the Supreme Court, which has just decided that a person peddling or selling books, groceries, or other articles, in a town or village, without a license as a peddler or salesmen, is not punishable, and the court declares the ordinance requiring such dealers to take out a license to be invalid and void.

Scott and was ordered off the place by the renter, a man named Schwardt. He refused, and Schwardt started toward the boy to take his gun from him. Bray fired, and the load of bird-shot carried away one of Schwardt's ears, and his face was fitled with shot. Schwardt kept on in pursuit, when Bray fired another load at him, but missed him. Schwardt is very seriously hurt. Bray is under arrest.

Pearl-Hunting Craze. Special to the Indianapolis Journal.

BLOOMINGTON, Nov. 9 .- A pearl-hunting craze has been started along the banks of the Mackinaw river, an affinent of the Illinois, which flows through Woodford, Mc-Lean and Tazewell counties. The river bed is full of mussels, and it is believed that they contain countless pearls of much value.

Oliver, of Chicago, in the absence of a New Yorker advertised to appear, was pressed into service as the chief English speaker of the occasion. Mr. Oliver, though evidently chilled through and through by the raw gale that whistled among the grave-stones, began with the ex-clamation: "This is the happiest moment of my life." It was the remark made by Fischer, one of the executed Anarchists, on the scaffold, and its appropriation by Mr. Oliver elicited a cheer. The speaker went on to explain that his happiness was given him by Barttelot. Bonney confirms in "doing honor to the brave boys buried yonder. The inhuman act," he went on. "that brings this crowd to Waldheim to do reverence to their memory, will never be forgotten. From the ashes of that tomb will ever ring the cries of despair that will be heard across the briny deep and will shake the globe from pole to pole. H. E. Bartholomew succeeded Mr. Schultz. "Our five heroes," said he, "were sacrificed on the altar of necessity. Yes; I believe that the execution of these apostles of a higher civilization was necessary. Truth comes through pain and the blood of martyrs is its seal. Who can measure the influence of this event? The excitement over the assassination of Lincoln was as nothing in comparison with it." FIFTY THOUSAND A YEAR. The Salary of the Best-Paid Man in the United States.

Cincinnati Times-Star. A gray-haired man of possibly fifty-eight or sixty years, of medium height, rather rotund in build, and possessor of a pair of beady black eyes, took a pen in his chubby hand and indited: "A. Bonzano, Phenix, Pa.," on the register of the Gibson Hotel, Cincinnati, a few days ago. He seemed to be simply and solely a well-to-do business man who had come to the city to transact business, and by his nervously-quick manner a casual observer might think that he would do his business briskly and shake the mud of Cincinnati from his feet as soon possible. Now, who was he, this man Bonzano? The highest salaried man in America, outside, possibly, the President of this great and growing Nation.

He is merely an "employe" of the Phænix Iron Company, of Phænix, Pa., and a civil engineer. Here in the West we know not Bonzano, as he is in the East, but nevertheless the men with capital out here who are backing up great bridge projects are grad-ually coming to realize the almost absolute necessity of having Alphonse Bonzano look first into the project and then give his very valuable professional opinion concerning the feasibility of said project. Now as to his salary. An unblushing reporter put it straight to the old engineer last night: "My salary, my son," replied M. Bonzano, with a strong Teutonic accent, "is simply enormous. Does that satisfy you?"

This is all the old man has ever been

heard to say on that apparently delicate subject, but there are at least two men in this city who should know what the salary of this wonderful old man is annually. The reporter met them, and requested accurate information on the subject. The answer was simply stupendous. They replied almost in the same voice: "About \$50,000 a year."

The answer may sound more like an exaggeration, to draw it mildly, than a solid fact, but almost any civil engineer of your acquaintance, precious reader, will verify this incontrovertible fact. They say-that is, those who know him say-of Bonzano: "He is a man who loves his home and family, trusts his God, helps the needy in distress, and does his work more accurately and quickly than any other man of his kind in America."

Cleveland to Be Thrown Overboard. Washington Special to Chicago News.

Senator Eustis, of Louisiana, is outspoken in his denunciation of the course pursued by ex-President Cleveland in the New York elections recently, and he declares that his sentiments are shared by the leaders of the Democracy in the Empire State. "Prior to the departure of Mr. Croker for Europe," remarked the Louisi-ana Senator, "a conference was held at the Hoffman House, at which it was practically decided to throw Cleveland over so far as New York is concerned. There was no attempt to conceal the fact that he is distasteful to the leaders of the Democracy, and an outside man is preferred if it should be found that Governor Hill is not accepta-ble. What the New York Democracy desires is to go before the country with a clean man, and one for whom it will not be necessary to be trading and dickering with Republicans and the County Democracy in New York city, and pursuing a throat-cut-ting policy generally toward Tammany."

New York Special. John Sherman has been on Wall street to-day attending to some private railroad business which he has here. In his private remarks and published interviews Sherman has done a good deal to steady the Republican leaders. When he was asked to-day by some of his friends if this did not indicate a possible breaking up of the Republican party in its old stronghold in the West, Mr. Sherman said the idea was ridiculous. It seemed strange to him that the older men, who have had personal experience in politics for many years, should have been so surprised at the reaction from the Republican victory of 1888. This reaction, he said, was a thing he expected, for it had occurred many times in the past, and was likely always to occur. The only effect it would have, in his opinion, would be upon the political fortunes of individuals, and it changed somewhat the political vista so far as they were concerned.

Marvelous Fecundity. In comparing the animal and the vegetable kingdoms Linnæus denominates seed the eggs of plants. The fecundity of certain species of plants is simply marvelous.

ngle sunflower will produce from 4.000 to 12,000 seeds in one summer; the poppy, 32,000. One plant of the cat's-tail will produce two to five spikes, each containing an average of 10,000 seeds. One root of the East Indian elecampane will throw out 30 stalks, each having a seed vessel containing 3,000 seeds, or a total of 90,000 seeds from a single root in one summer. Ray, the English scientist, says that it takes 1,612 tobacco seeds to weigh one grain, and that a single plant will produce 360,000 seeds. The same author estimates the annual seed product of the spleen-wort to be upwards
